

zeta

The new style to scan.

Z **ZEUTSCHEL**
WE DIGITIZE YOUR WORLD

Scanners never looked better. Neither did your scans.

Unpack, switch on, get started

Historical books, new books, magazines, files, ring binders, contracts, balance sheets or land-use plans – there is almost nothing that you cannot digitize or copy with the zeta. But it doesn't just deliver excellent image and data, it also looks pretty good and is incredibly easy to operate. That makes the zeta the ideal multifunctional system for digitizing and copying in libraries, archives, universities and schools. But authorities, copy shops, banks, insurance companies, legal offices and media companies also quickly appreciate the performance of this compact office aid. The perfect completion of an up-to-date office.

How to plug'n'scan

Simply unpack the device, plug it in, put in the original document and off you go. The zeta delivers high-quality data with the highest resolution in no time flat. You have free choice for data output. You can check, print or mail your data, save it on the USB stick, send it to your Follow-me application, provide it for download via FTP, or save it in the cloud. This is how you save paper and help protect the environment today.

Perfectly straight, not crooked or askew

The book is on its back with zeta and is scanned very carefully from the top. Simply turn the page after every scan. Distorted letters in the book fold or bent plots are

automatically straightened by the software Perfect Book 3.0, as are original documents that are positionally crooked. You can preview each scan on the high resolution touch screen display in full-HD-resolution (1920 x 1080 px). Faulty scans are a thing of the past. You have a choice of the zeta with or without convenient book cradle.

The zeta is available as a standalone model with a separate TFT monitor or as a compact version with built-in TFT monitor – both with the same features and the same quality.

But don't just listen to us – discover the zeta for yourself. Because scanners never looked better. Neither did your scans.

Product advantages

- compact, functional and revolutionary design
- easy installation thanks to plug'n'scan
- convenient operation
- independent of ambient light due to white reference check. Test and adaptation is done automatically
- no glare for users
- touch panel (21,5") with multi-touch technology
- full HD resolution (1920 x 1080 px)
- brilliant color rendering
- high scanning speed
- short scanning cycles
- high depth focus
- high quality output data
- preview function for quality control
- follow-me solutions
- multilingual user menu
- flexible interfaces
- Perfect Book 3.0 – scan technology for a perfect book curve correction
- remote maintenance and remote administration
- energy efficiency – in line with Energy Star

Additional Options and Interfaces

Software module Office Kit

for easy scanning of stapled and pasted documents, ring binders and direct scanning from the folder, including Scan-to-E-Mail and Scan-to-Network

Software module zeta2mobile

for storage of scans on tablet or smartphone (for IOS and Android). The user is able to transfer his scanned documents directly to his mobile device. The APP can be setup on the phone/tablet easily and quick by a QR code. The data are transmitted via WLAN router or integration into the in-house WLAN network. During extended periods of inactivity, connected APP users are automatically disconnected from the scanner WLAN.

Software module scan resolution

600 ppi zeta

A minimum resolution of > 300 ppi is guaranteed. Due to this optional software module the system has a resolution of 600 x 600. The resolution is adjustable from 150 - 600 ppi (in defined steps).

Software module Scan-to-cloud

(eg Dropbox)

In addition to the storage on a USB stick, it is also possible to upload the scans to the Dropbox.

Software module for delivery service

incl. software module barcode and scan-to-network

Software module Output of highly

compressed PDF

With this feature, the amount of data stored in PDFs is minimized without loss of quality.

Additional software modules:

OCR (searchable pdf), scan-to-network, scan-to-e-mail

Footswitch USB for starting the scan

Book holder Kit 140° - 90°

OS 15000 Comfort with separate all-in-one touch panel and zeta-software

■ touch panel (21,5") with multi-touch technology

■ flexible interfaces

■ Version OS 15000 Comfort with touch panel and zeta software

■ easy installation thanks to plug'n'scan
